Note: First-time Freshman headcounts include those students who entered SIUC in the summer, the rest are Fall only

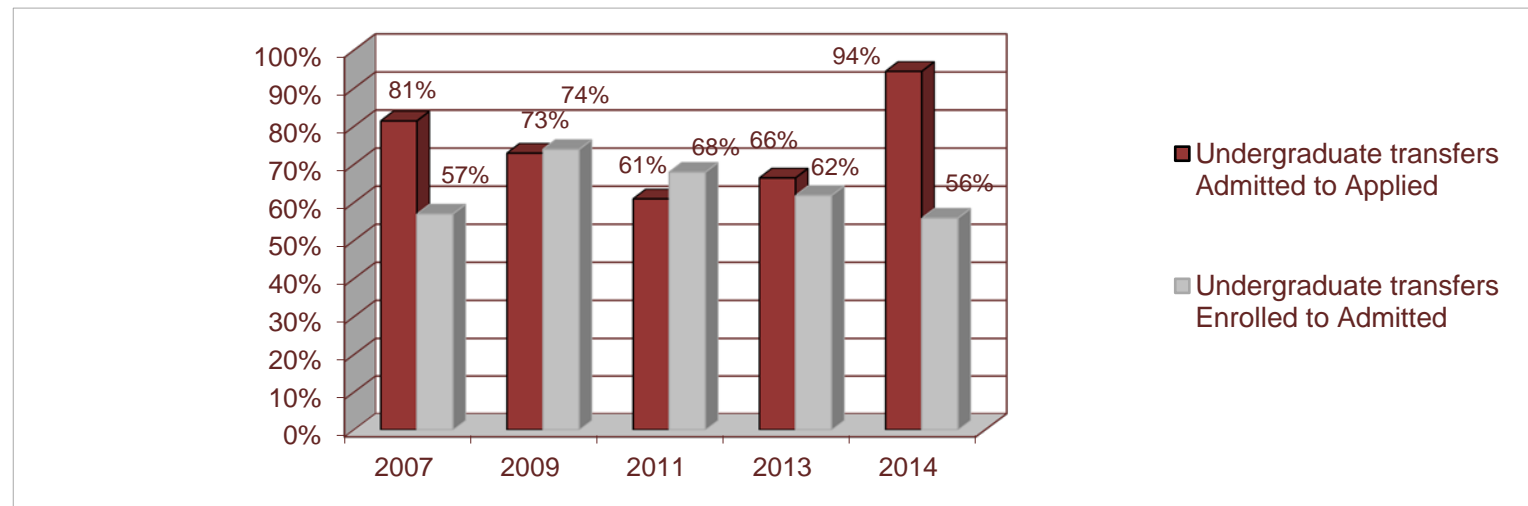

1. The "Number of Applications" for 2013 reflects a shift in SIU's approach to tracking and reporting applications and does not reflect an actual decline in total applications received (in fact, 2.8% more applications were received in 2013 compared to 2012). Beginning in 2013, SIU is reporting only those applications considered to be actionable, consistent with nationally recognized practices. The number of First-time Freshman applications could vary slightly from what is reported to IPEDS because students that do not specify gender are not included in IPEDS

2. Prior to 2013, first-time Freshman admitted headcounts excluded those students who withdrew after an admit decision had been made. Beginning in 2013, SIU is also reporting admitted students consistent with nationally recognized practices.

NOTES: Percents are cumulative rather than annual percents. Each graduation year contains all recorded graduations of students in a graduation year of December, May, and August. Each cohort consists of all new full-time freshman entering SIU Carbondale in the respective summer and continuing into fall, or entering in that fall semester for the first time. On-campus only degree-seeking students are included in each cohort. All 10th day cohorts were tracked through 10th day of Fall semester 2014, and the status of the student entered as a new freshman: did the student graduate, is the student still persisting, or is the student a non-persister. Continued to 2nd Year, 3rd Year, etc. is defined as a student who returns for Fall semester of that year.

The cohort headcount for new, full-time freshmen will not match Fact Book table, Enrollments by Full-Time/Part-Time within Class Level, because that table includes associate degree-seeking and off-campus students as well as baccalaureate degree-seeking students.

NOTES: Academic Year includes Fall and Spring semester.

Effective Fall 2004, non-resident tuition changed from 2 to 2.5 times resident tuition.

\*\* Effective Fall 2004, the Guaranteed Tuition Stabilization Plan for first-time undergraduate students was enacted.

New first-time freshmen from the 34 southern most counties in Illinois who qualify for the Academic Competitiveness Grant will be given an alternate tuition rate of 0.8 times the normal residency rate, guaranteed for four years along with the appropriate Guaranteed Tuition Plan.

The non-residency multiplier for students from Missouri, Kentucky, Indiana, Tennessee, and Arkansas will be 1.0. For undergraduates, this multiplier will be guaranteed for four years along with the appropriate Guaranteed Tuition Plan.

Tuition costs are locked in at the same annual rate for up to four continuous academic years following initial enrollment.

The minimum course load for full-time as an undergraduate is 12 hours and the typical load is 15 hours.

**Statement of Revenues, Expenses and Changes in Net Position  
For the Year Ended June 30, 2014**

**NOTES:**

Includes Carbondale campus and School of Medicine at Springfield.

The Statement of Revenues, Expenses and Changes in Net Position differentiates between operating and nonoperating revenues and expenses, and displays the net income or loss from operations. An operating loss will always result since revenues from state appropriations are mandated as nonoperating.

Tuition and fee revenues have been reduced by scholarship and fellowship amounts that have already been recognized as revenues. Scholarship allowances totaled \$39,186,263 in FY 2014.

The depreciation of capital assets is presented as an operating expense.

Auxiliary enterprises are operated primarily for service to students and staff and are intended to be self supporting, such as Housing, Student Center, Student Health Programs, Student Recreation Facility, and Parking.

Nonoperating grants and contracts are nonexchange transactions, primarily federal student aid programs such as Pell grants.

Payments on behalf of the University represent health care and retirement costs paid by the State of Illinois on behalf of University employees. These costs are reflected as operating expenses under the appropriate functional classification and as nonoperating revenues.
